Ladies & Gentlemen,

We are more than happy to cordially invite all of you to Food Processing & Packing Technologies Conference (FPPTC) on 23 July 2020, Thursday.

As you all know, the world is passing through an unusual period which forces everyone to change their routines, look for alternative ways to survive during and even after the pandemic. This reality affects the sales and marketing activities of every company as well since it is still not safe for the crowds to come together like in the exhibitions.

Due to this fact, Food Processing & Packing Technologies Conference, an important forum in the region for food industry organized by Cehuma Thermoform Machines has been decided to switch to online platform this year and free for its participants to support the knowledge share particularly in these tough days.

Food Processing & Packing Technologies Conference is a platform mainly for dairy, meat, poultry, fruit & vegetables, seafood, water, fruit juice, fast consuming drinks... where the attendees find chance to refresh their knowledge, follow-up the latest developments and future directions particularly in processing, filling and packing machinery directly from the technical experts first hand.

Looking forward seeing you at the conference!

Mahir ZİYREK
Business Development Manager
